### Scopus

This article scored **3.80**

The context below was calculated when this article was last mentioned on **26th February 2015**

Compared to all articles in Plant Biosystems - An International Journal Dealing with all Aspects of Plant Biology

So far Altmetric has tracked 101 articles from this journal. They typically receive a little less attention than average, with a mean score of 1.2 vs the global average of 4.9. **This article has done particularly well, scoring higher than 94% of its peers. It's actually the 6th highest scoring article in this journal that we've seen so far.**

Older articles will score higher simply because they've had more time to accumulate mentions. To account for age we can compare this score to the 43,748 tracked articles that were published within six weeks on either side of this one in any journal. **This article has done well, scoring higher than 79% of its contemporaries.**

More generally, Altmetric has tracked 3,484,891 articles across all journals so far. Compared to these this article has done well and is in the 80th percentile: **it's in the top 25% of all articles ever tracked by Altmetric.**
