MIKE

I've been taking classes in origami for three months. Basically, you learn how to make beautiful objects using paper. It's an ancient Japanese art and I really love it. It's very creative because you actually make very beautiful things, birds, animals... and you can keep them forever. I've given some away as birthday presents and people love them!

TOM

Well, my hobby is cooking. I think it's actually quite creative because I've made up lots of my own recipes. It isn't really creative if you just follow a recipe book. People say I'm a good cook. I've been trying to open my own restaurant for ages but I don't have the money yet. But it's something I'll definitely do in the future

RUTH

I think you have to be creative to look after children. It's important to really let them develop their own ideas and imagination. I've been playing with my three children this morning and the room is a complete mess because we've been pretending it's a zoo. But letting them be creative is much more important than being tidy!

1. The question is about how long something has taken, so the Present Perfect Continuous is better.
2. The Present Perfect Simple indicates that the cleaning has recently been finished. Use the Present Perfect Continuous to show that it is incomplete.
3. The Present Perfect Continuous indicates that the attempt to give up is incomplete. Use the Present Perfect Simple to show that it is now complete.
4. The continuous form can't be used with state verbs.
5. The Present Perfect Continuous is better to emphasise the repetition of the activity.
