900+ incoming students from 62 countries

## University associations

(EUA, EUF, Danube Rectors' Conference, Compostela Group, UNeECC, IAU)

# EDUC: with innovation to develop competitiveness

- **With EDUC (European Digital UniverCity)** to develop competitiveness and visibility across the members' macroregions and beyond.
- Aim: one **joint, European virtual campus**

Your world  
just got  
bigger.

# Joint/shared strategic partnerships around the world

- In the long run, the alliance intends to visualize itself as one “European digital university”.
- Involving all partnerships for the sake of the alliance, **each member can profit from the partnerships of the other members.**

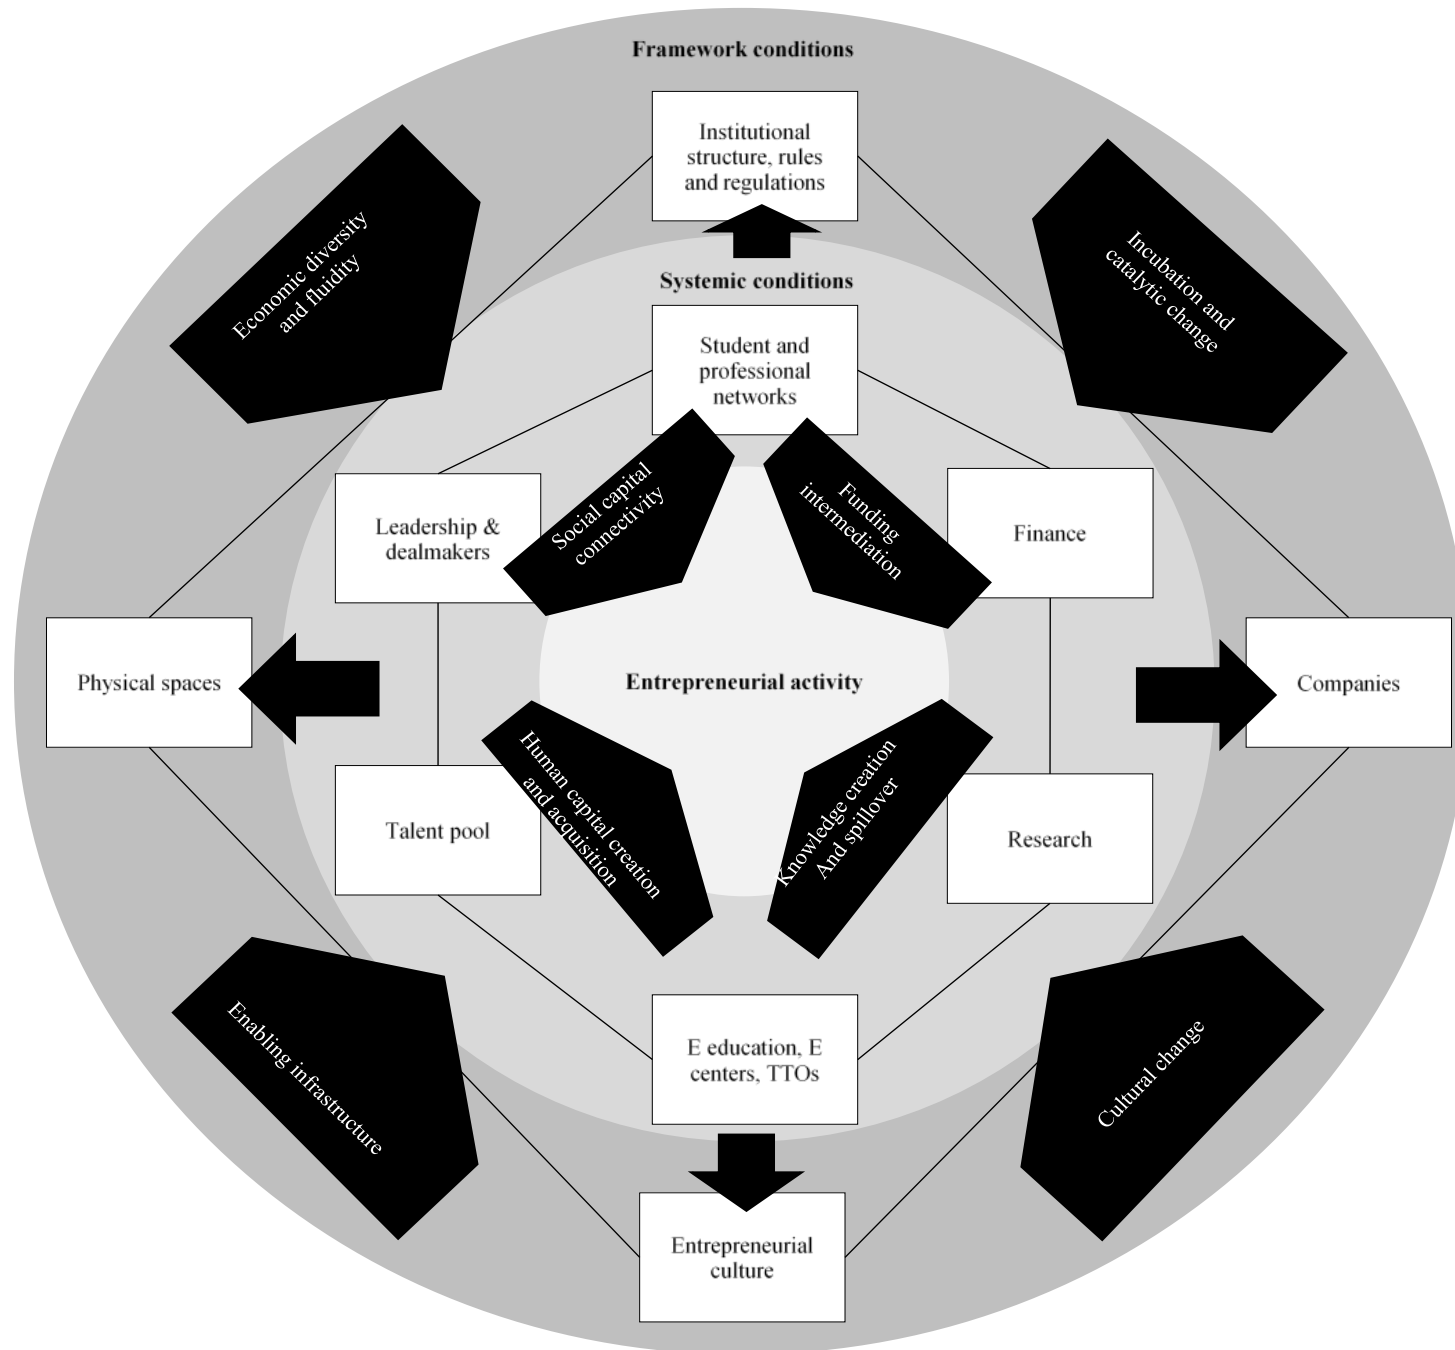

# Pécs is responsible for the strategic framework

***Milestone:** Unified Strategic Framework for engaging regional and international stakeholders as well as common standard for the Alliance*

# Intensified collaboration with a digital touch

# What kind of support can EDUC provide?

- providing teaching and research staff to go **even more visible** in hyperspace
- and **get connected** with like-minded fellows, colleagues, together with whom
- **new research groups/projects/proposals** can be fostered and encouraged
- and **joint grant applications** submitted to funding sources
- with the internationalization app EDUC offers its own 6-member-managed global network to utilize direct ways to foster teaching and research activities

# What other outreach activities we may suggest

- some good practice projects from members to develop the learning environment
- from Pécs: to foster intercultural outreach, to get other stakeholders (e.g. city council, NGOs, companies) on board
- mutually beneficial and meaningful collaborations
- shared benefits and results in the wider macro communities

# Some innovative projects from Pécs
