2. Admission

2.1 BACHELOR'S DEGREES

Bachelor's Degree Programmes have a limited enrollment with a selective entry system and it is necessary to take a test.

Minimum qualification required: Five-year high school diploma

Degree Programme (University code)	Test date	Access	Number of students admitted	
			total	Foreign students (non EU + Chinese Marco Polo programme)
Civil Engineering (70/72)	26-27 July 2016 1-2 September 2016	local restricted access	150	3

Architectural Science (80/71)	8 September 2016	national restricted access	106	6

The admission to the chosen programme depends on the personal position in the list of candidates passing the entrance test.

More information is available (in Italian language) on the [Faculty web site](#).

All the administrative procedures to enroll are available at link [Servizi online agli studenti](#).

2.2 MASTER'S DEGREES

Master's Degree Programmes in Engineering are open access, while Master's Degree Programme in Architecture has a limited enrollment.

In any case specific curricular requirements must be satisfied and the assessment of personal proficiency and skills is required.

Minimum qualification required: First Cycle (Bachelor's) Degree

Environmental and Land Engineering (70/86)	open access	-	15

The admission to the Master's Degree of Architecture (9th September) depends on the position in the list of candidates passing the entrance exam.

Procedures and deadlines are available in the call for applications on the [Faculty website](#), to be downloaded and read carefully.

The assessment of personal proficiency for Engineering master's degrees will be held on 15th September.

The methods and schedules for assessing curricular requirements and personal proficiency and skills may vary from programme to programme. Specific information about curricular requirements, methods and dates is available in the [Faculty website](#), in the academic Regulation of the Degree Programme you are interested in.

3. Compulsory Supplementary Education (CSE) – Bachelor degrees

3.1 BACHELOR DEGREES IN ENGINEERING

A test result below the pass threshold (score < 15/40), for candidates in useful position in the list, causes assignment of compulsory supplementary education (CSE). These students can take advantage of the realignment courses available on the online platform of the University. The CSE can be satisfied by passing the test in a subsequent session (score = > 8/20) or by passing the exam in Mathematical Analysis 1, before taking any other exams.

3.2 BACHELOR DEGREE IN ARCHITECTURAL SCIENCE

A test result below the pass threshold (score < 28/90), for candidates in useful position in the list, causes assignment of compulsory supplementary education (CSE). These students can take advantage of the realignment courses available on the online platform of the University. The CSE can be satisfied by passing the test in a subsequent session or by passing the exam in Architectural Drawing and Surveying 1 and the preliminary exams in Mathematical Analysis (Integrated Course in Mathematics) and in Architectural Design 1 (Integrated Laboratory of Design and Construction of Architecture 1), before taking any other exams.

4. European language level

All students must possess the European language level indicated in the table to acquire the relative credits:

Degree Programme (University code)	EU Language	European level (CEFR)	ECTS
