

Smart Tools and Applications in Graphics (STAG) 2022

Cagliari, November 17-18, 2022

STAG is the annual international conference organized by the Italian Chapter of the Eurographics association. For its 9th edition the conference will be held in Cagliari. The aim of the conference is the dissemination of research activities and novel ideas on both theoretical and application-oriented aspects of Computer Graphics, bringing together researchers and practitioners from both national and international scientific community to share their latest developments.
