Researchers Focus Group-R2 online meeting started on *MSTeams* at h. 12.00.

The final version of the gap analysis had been previously made available to members of the R2 group in a shared folder where all the focus group members had access to the document under consideration.

With the consent of the attendees, the meeting was recorded. The recording will be uploaded to a shared folder on Teams and made available to all group members.

The TWG representative, dr. Olimpia G. Loddo, illustrates the final version of the Gap analysis.

Within this meeting, a small modification concerning the principle of Research Freedom, was suggested via mail by dr. Chighine (who, because of his work schedule, was unable to attend the meeting), is discussed. The proposal is accepted and included among the suggestions that will be sent to the TWG coordinator.

Participants communicate their observations about the document to the TWG representative, who will report them to the TWG coordinator.

The participants find that the issues raised in the previous meeting (on 27 January 2023) on the same gap analysis have been fully addressed. The suggested changes are minimal. The gap analysis is fully approved.

The meeting ended at 12.40 (attendees below).
