- a degree awarded according to the Italian Ministerial Decree no. 270/2004 (laurea magistrale);
- a degree awarded according to the Italian Ministerial Decree no. 509/1999 (laurea specialistica);
- a degree awarded according to the regulations established before the Italian Ministerial Decree no. 509/1999 (laurea);
academic qualification (2nd cycle university degree: Master-level) issued by a foreign university recognized as equivalent. The foreign university degree must be evaluated as suitable and equivalent, in terms of duration, level of degree and fields of study to the degree listed above and providing access to PhD programmes in the awarding country. The Selection Committee will deliberate on its equivalence, in compliance with the current legislation in Italy and in the Country where it was issued, and with the international treaties or agreements concerning the recognition of qualifications for further studies for the sole purpose of the admission to the PhD programme.

The admission is also open to students who are going to graduate by 30th November 2023. These candidates will be admitted with reservation and will submit a certificate (only for degrees obtained abroad) or a self-declaration of their graduation together with a scanned copy of a valid ID/passport. The certificate/self-declaration should be sent to dottoratiemaster@unica.it. The degree must be obtained in any case before the enrolment. If the applicant is evaluated positively to be admitted to a PhD programme but he/she will not be awarded the necessary degree by the above-mentioned date, he/she will lose that suitable position as well as the scholarship, if already assigned.

The submission of a research project coherent with the topic of the PhD programme and/or the scholarship for which the applicant intends to apply is also a requirement for admission. The verification of consistency will be carried out by the Selection Committee, prior to the evaluation of the qualifications of the candidates, and may determine, in the event of a negative result, the non-admission of the candidate(s) to the next phases of the selection process.

request, accompanied by a scan of the candidate's identity document, must be sent to the email
address of the contact person indicated in the annex of the doctorate, up to 3 days prior to the
date set for the interview. The acceptance of the request is left to the discretionary and
unquestionable evaluation of the Committee, which will communicate its decisions via email to

The rankings of admitted and eligible but not admitted candidates will be published on the webpage https://web.unica.it/unica/en/studenti_s01_ss05.page.

Art. 10 - Scholarships
As indicated for each PhD programme in art. 1 and in Annexes published on the webpage https://web.unica.it/unica/en/studenti_s01_ss05.page, scholarships with specific topics will be awarded with Rector’s Decree on the basis of the rankings drawn up by the Selection Committees, also considering the eligibility evaluations on the candidates’ projects as well as the selection results.
Scholarship granting procedures, as well as information about fulfilments needed to allocate them, will be published on the webpage mentioned above.
The scholarships have a total duration of three years and are confirmed annually with managerial provision, provided that the PhD student has completed the programme of activities planned for the previous year, verified by the Academic Board.

The annual amount of the scholarship is EUR 16,243.00, gross of tax deduction (INPS “Gestione Separata” to the beneficiary: 1/3) and net of the University deduction (2/3).

The amount of the scholarship is increased to 50%, according and proportionally to the duration of the PhD student’s stay abroad at universities or research institutions, when he/she is authorized by the Academic Board or, upon its delegation, by the Coordinator, if the stay does not exceed 3 months. The increase on the scholarship is not paid when the PhD student stays in his/her country of origin or residence, except for exceptions authorized by the Rector in relation to special cases.

The scholarships are paid out exclusively to PhD students not receiving an annual gross income higher than EUR 16,243.00. Exceeding that limit will result in the loss of the scholarship and implies the duty to give back the monthly payments already received for a specific year.

The revocation of the scholarship, with the consequent obligation for the beneficiary to refund the total or partial sums received, is made in case of: failure to carry out the scheduled periods of study and research abroad, pursuant to art. 12 par. 2 of the University Regulations on PhD programme; negative assessment of the Academic Board and the consequent non-admission to the following year of the doctoral PhD programme; waiver from the scholarship; failure to obtain the PhD degree at the completion of the PhD programme.

The PhD scholarships cannot be added to other grants awarded for any purpose, nor to any other research grants/contracts.

The scholarships will be paid in monthly deferred payments. The payment of the first monthly instalment will be done after the conclusion of the administrative and fiscal procedures needed to allocate them, after PhD students will have provided all the relevant documents.

Those PhD students who benefited, although partially, of a PhD scholarship in the past, cannot apply a second time for another PhD scholarship.

Scholarships funded by NRRP cannot be renounced, also depending on the achievement of the related NRRP community targets. Therefore, the positions associated with them will be assigned exclusively to candidates who meet the requirements set out in this article.

The renunciation of the scholarship entails the loss of the status of doctoral student.

**Art. 11 - PhD students’ attendance and obligations**

The PhD programme entails an exclusive and full-time commitment.
The PhD students are required to carry out the PhD activities assiduously and to fulfil the educational obligations according to the programme and in compliance with the deadlines approved by the Academic Board, also with reference to the level of knowledge of English to be acquired at the conclusion of the doctorate, and to carry out, over the three-year period, research and training activities consistent with the doctoral project, at highly qualified foreign university institutions or research institutions, for a period with a mandatory minimum duration of 6 months.

The PhD students can work as tutors, provide integrative teaching activity and be employed according to the Rules and Regulations about PhD programmes in force at UniCa.

At the end of each academic year, the Academic Board evaluates the PhD student’s activity, through appropriate forms of assessment, under which he/she can be admitted to the following year or, on a reasoned decision, excluded in the event of a negative evaluation. The exclusion from the programme may be asked also in case of non-participation in the organized activities, unjustified and prolonged absences, or if the PhD student works without the prior authorization of the Academic Board.

Being excluded means losing the PhD student’s position and the scholarship.

The excluded PhD student cannot enrol again in the same doctorate.

Attendance of the doctorate and the disbursement of any scholarship received are suspended in cases of maternity, paternity and parental leave and serious and prolonged duly documented disease.

They can also be suspended, for a maximum duration of six months, at the request of the PhD student, with the favourable opinion of the Academic Board, for serious and proven family reasons.

The suspension period, during which the PhD student retains the right to any scholarship received, must be recovered at the end of the three-year legal duration of the doctorate.

At the end of the suspension period, the disbursement of the scholarship starts from the resumption of attendance of the PhD programme, up to the total duration of the scholarship.
