Art. 10 - Scholarships

As indicated for each PhD programme in art. 1 and in Annexes published on the webpage https://web.unica.it/unica/en/studenti_s01_ss05.page, scholarships with specific topics will be awarded with Rector's Decree on the basis of the rankings drawn up by the Selection Committees, also considering the eligibility evaluations on the candidates' projects as well as the selection results.

Scholarship granting procedures, as well as information about fulfilments needed to allocate them, will be published on the webpage mentioned above.

The scholarships have a total duration of three years and are confirmed annually with managerial provision, provided that the PhD student has completed the programme of activities planned for the previous year, verified by the Academic Board.

The annual amount of the scholarship is EUR 16,243.00, gross of tax deduction (INPS "*Gestione Separata*" to the beneficiary: 1/3) and net of the University deduction (2/3).

The amount of the scholarship is increased to 50%, according and proportionally to the duration of the PhD student's stay abroad at universities or research institutions, when he/she is authorized by the Academic Board or, upon its delegation, by the Coordinator, if the stay does not exceed 3 months. The increase on the scholarship is not paid when the PhD student stays in his/her country of origin or residence, except for exceptions authorized by the Rector in relation to special cases.

The scholarships are paid out exclusively to PhD students not receiving an annual gross income higher than EUR 16,243.00. Exceeding that limit will result in the loss of the scholarship and implies the duty to give back the monthly payments already received for a specific year.

The revocation of the scholarship, with the consequent obligation for the beneficiary to refund the total or partial sums received, is made in case of: failure to carry out the scheduled periods of study and research abroad, pursuant to art. 12 par. 2 of the University Regulations on PhD programme; negative assessment of the Academic Board and the consequent non-admission to the following year of the doctoral PhD programme; waiver from the scholarship; failure to obtain the PhD degree at the completion of the PhD programme.

programme will be paid exclusively from the date of termination of the overlapping period, reduced by the accruals relating to the aforementioned period, which cannot be recovered.

The scholarships will be paid in monthly deferred payments. The payment of the first monthly instalment will be done after the conclusion of the administrative and fiscal procedures needed to allocate them, after PhD students will have provided all the relevant documents.

Those PhD students who benefited, although partially, of a PhD scholarship in the past, cannot apply a second time for another PhD scholarship.

The PhD students can work as tutors, provide integrative teaching activity and be employed according to the Rules and Regulations about PhD programmes in force at UniCa.

At the end of each academic year, the Academic Board evaluates the PhD student's activity, through appropriate forms of assessment, under which he/she can be admitted to the following year or, on a reasoned decision, excluded in the event of a negative evaluation. The exclusion from the programme may be asked also in case of non-participation in the organized activities, unjustified and prolonged absences, or if the PhD student works without the prior authorization of the Academic Board.

Being excluded means losing the PhD student's position and the scholarship.

The excluded PhD student cannot enrol again in the same doctorate.

Attendance of the doctorate and the disbursement of any scholarship received are suspended in cases of maternity, paternity and parental leave and serious and prolonged duly documented disease.

They can also be suspended, for a maximum duration of six months, at the request of the PhD student, with the favourable opinion of the Academic Board, for serious and proven family reasons.
