

Educational Activities Related to GSD 05/BIOS-06 (SSD BIOS-06/A Profile)

Curriculum:

- July 1980: High School Diploma in Scientific Studies
- November 1990: Degree in Biological Sciences, Faculty of Mathematical, Physical and Natural Sciences, University of Cagliari
- March 1995: Specialization in Toxicology, Faculty of Pharmacy, University of Cagliari

Current Position:

- Confirmed Researcher in Physiology, Department of Biomedical Sciences, University of Cagliari

Professional Experience:

- 1988-1990: Internal Graduate at the General Physiology Laboratory of the Department of Experimental Biology, University of Cagliari
- 1992: Qualification for the profession of Biologist
- 1997-2000: Subject Expert for General Physiology in the Faculty of Pharmacy
- 1999-2000: Graduate Technician at the General Physiology Laboratory of the Department of Experimental Biology, University of Cagliari
- 2000 - Present: Researcher in Physiology, Department of Biomedical Sciences, University of Cagliari
- 2007 - Present: Assignment of teaching the "Cellular Physiology" Module – Master's Degree Course in Cellular and Molecular Biology
- 2010 - Present: Assignment of the Physiology module for the course "Morphological and Functional Bases of Life" in the Nursing Sciences Degree

Research Lines:

- Physiology of taste and smell in animal models and in humans.
- Studies on an invertebrate model, *Drosophila melanogaster*, of neurodegenerative diseases, sleep, and mood.
