

PhD Programme in PHYSICS	
DISCIPLINARY SCIENTIFIC AREA	02- PHYSICAL SCIENCES
COORDINATOR	PROF. UMBERTO D'ALELIO
HEAD DEPARTMENT	DEPARTMENT OF PHYSICS
DURATION	3 YEARS
LEARNING OUTCOMES AND RESEARCH TOPICS	<p>The PhD Project:</p> <p>The organization of the PhD programme in Physics allows PhD students to acquire fundamental tools and expertise to conduct research activity in academic and industrial sectors, as well as to develop skills in activities of public engagement and teaching. The composition of the PhD Board, covering a broad range of research fields in Physics, gives PhD students the opportunity to acquire high-level expertise in a large variety of scientific areas. This will be also strengthened by the possibility to be part of large national and international collaborations. Special care is also devoted to problem solving skills, allowing PhD students to face more general situations outside research.</p> <p>The PhD programme in Physics pursues the following goals:</p> <ol style="list-style-type: none"> 1. COMPLETING THE BACKGROUND IN PHYSICS – The PhD candidates will attend specific lectures, seminars, and additional lecturing activities at post-graduate level. 2. DEVELOPING A PROPER RESEARCH ATTITUDE - The PhD candidate will be assigned a supervisor according to the state-of-the-art research topic who will supervise her/his research and training activities. PhD students join research groups and will work in teams including undergraduate students, post-docs, researchers, and faculty members. Additionally, to complete the training to research, the supervisor will favour the involvement and the commitment of the PhD candidate in international collaborations, the attendance at workshops and conferences as well as in drawing up internal reports and scientific articles. 3. WORKING ON AN INNOVATIVE RESEARCH TOPIC – The research activity of the PhD candidates will be inserted in research projects. The PhD candidates have (i) to work on a novel topic; (ii) to publish the obtained results in national and international scientific journals; (iii) to present the research line and the obtained results in both internal review sessions (year-end seminars and year-end reports) and workshops and/or conferences. 4. DEEPENING ASPECTS OF PROJECT MANAGEMENT – The PhD candidate will be exposed to specific courses on skills related to drafting and managing a project including issues associated with the intellectual property. 5. DEVELOPING SKILLS IN AREAS OUTSIDE RESEARCH – The PhD candidate will be involved in periodic meetings with PhDs working in the context of public engagement and outreach. <p>In Italy, PhDs in Physics are usually employed in the academy and/or in public research institutes. However, due to the involvement of research groups of the Physics Department in projects with a strong contribution from companies (INFN projects at CERN, the SRT-Sardinian Radio Telescope, the RESET project within the European Innovation Partnership and the project supported by the NIH-National Institutes of Health), the connection with industries and companies will be strengthened.</p>

	PhDs in Physics are also involved in activity of public engagement and editorial services at high level: some examples are their recruitment at the Bruno Kessler Foundation and the Editorial Office di Nature Communication.
ELIGIBILITY AND OTHER REQUIREMENTS FOR CANDIDATES (ART. 2 - NOTICE OF COMPETITION)	<p>LM-8 Biotecnologie industriali</p> <p>LM-9 Biotecnologie mediche, veterinarie e farmaceutiche</p> <p>LM-17 Fisica</p> <p>LM-18 Informatica</p> <p>LM-20 Ingegneria aerospaziale e astronautica</p> <p>LM-21 Ingegneria biomedica</p> <p>LM-22 Ingegneria chimica</p> <p>LM-23 Ingegneria civile</p> <p>LM-25 Ingegneria dell'automazione</p> <p>LM-26 Ingegneria della sicurezza</p> <p>LM-27 Ingegneria delle telecomunicazioni</p> <p>LM-28 Ingegneria elettrica</p> <p>LM-29 Ingegneria elettronica</p> <p>LM-30 Ingegneria energetica e nucleare</p> <p>LM-31 Ingegneria gestionale</p> <p>LM-32 Ingegneria informatica</p> <p>LM-33 Ingegneria meccanica</p> <p>LM-34 Ingegneria navale</p> <p>LM-35 Ingegneria per l'ambiente e il territorio</p> <p>LM-40 Matematica</p> <p>LM-44 Modellistica matematico-fisica per l'ingegneria</p> <p>LM-53 Scienza e ingegneria dei materiali</p> <p>LM-54 Scienze chimiche</p> <p>LM-58 Scienze dell'universo</p> <p>LM-71 Scienze e tecnologie della chimica industriale</p> <p>LM-74 Scienze e tecnologie geologiche</p> <p>LM-79 Scienze geofisiche</p> <p>LM Sc. Mat. Scienze dei materiali</p> <p>8/S (specialistiche in biotecnologie industriali)</p> <p>9/S (specialistiche in biotecnologie mediche, veterinarie e farmaceutiche)</p> <p>20/S (specialistiche in fisica)</p> <p>23/S (specialistiche in informatica)</p> <p>25/S (specialistiche in ingegneria aerospaziale e astronautica)</p> <p>26/S (specialistiche in ingegneria biomedica)</p> <p>27/S (specialistiche in ingegneria chimica)</p> <p>28/S (specialistiche in ingegneria civile)</p> <p>29/S (specialistiche in ingegneria dell'automazione)</p> <p>30/S (specialistiche in ingegneria delle telecomunicazioni)</p> <p>31/S (specialistiche in ingegneria elettrica)</p> <p>32/S (specialistiche in ingegneria elettronica)</p> <p>33/S (specialistiche in ingegneria energetica e nucleare)</p> <p>34/S (specialistiche in ingegneria gestionale)</p> <p>35/S (specialistiche in ingegneria informatica)</p> <p>36/S (specialistiche in ingegneria meccanica)</p> <p>37/S (specialistiche in ingegneria navale)</p> <p>38/S (specialistiche in ingegneria per l'ambiente e il territorio)</p> <p>45/S (specialistiche in matematica)</p> <p>50/S (specialistiche in modellistica matematico-fisica per l'ingegneria)</p> <p>61/S (specialistiche in scienza e ingegneria dei materiali)</p> <p>62/S (specialistiche in scienze chimiche)</p> <p>66/S (specialistiche in scienze dell'universo)</p> <p>85/S (specialistiche in scienze geofisiche)</p>

	<p>Foreign candidates: Master's degree in Physics and related subjects (to be evaluated on a case-by-case basis)</p>
ADMISSION TESTS FOR CANDIDATES APPLYING FOR THE ORDINARY POSITIONS	<p>ASSESSMENT OF QUALIFICATIONS AND CURRICULUM VITAE, AND IN-PERSON INTERVIEW</p> <p>The interview will aim to ascertain the candidate's ability to orient on the main areas of study inherent in the doctorate and to verify his/her analytical, processing and communication skills.</p> <p>During the interview, a three-year research project proposed by the candidate will be discussed, which must be presented, in addition to the documents required by art. 3 of the call for applications, by uploading it to the system by the call expiry date (file name: research_project_surname_name).</p> <p>Candidates unable, for justified reasons, to take the interview at the established venue, may be granted the possibility of carrying it out by videoconference, on the same date and time established for face-to-face interviews, according to the procedure indicated in the notice of competition.</p>
ADMISSION TESTS FOR FOREIGN CANDIDATES APPLYING FOR THE RESERVED POSITION	<p>ASSESSMENT OF QUALIFICATIONS AND CV, AND ONLINE INTERVIEW</p> <p>During the interview, a three-year research project proposed by the candidate will be discussed, which must be presented, in addition to the documents required by art. 3 of the competition announcement (certificate attesting the award of a 2nd level foreign degree needed to access a PhD programme, including exams and marks, with a translation in Italian or English; certificate attesting the award of a 1st level foreign degree, including exams and marks, with a translation in Italian or English; signed Curriculum Vitae preferably in EU format, in English or Italian; additional qualifications, certifications, publications; a copy of a valid passport), by uploading it to the system, by the expiry date of the announcement (file name: research_project_surname_name). The interview can also be conducted in English.</p> <p>Reference letters (up to 3) must be written in English, using the form available on the webpage https://web.unica.it/unica/en/studenti_s01_ss05.page (How to apply for PhD selection: Guidelines and forms- Annex D), by a university professor or an expert in the research fields of the PhD programme, on letterhead of their institution, dated and signed. Evaluators will send their letters directly to the email address phdcall_referenceletter@unica.it (object: surname and name of the candidate being evaluated and name of the PhD programme for which he/she is applying).</p>
POSITIONS	<p>14, 1 of which without scholarship, and 1, with scholarship, reserved for a foreign candidate with a 2nd level degree awarded abroad</p>
SCHOLARSHIPS	<p>13:</p> <ul style="list-style-type: none"> - 1 funded by the University of Cagliari (funds from Regional Law no. 7 of 7.8.2007, allocated to the University pursuant to Regional Council Resolution no. 45/84 of 27.11.2024) – CUP F23C24001130002 - 6 funded by external institutions: <ul style="list-style-type: none"> • 1 funded by INFN (National Institute for Nuclear Physics) • 1 funded by INFN (National Institute for Nuclear Physics). Research topic related to “Experimental and data analysis activity for the search of gravitational waves at the Virgo and Einstein Telescope interferometers” (research leader: Dr. Andrea Contu) • 2 funded by INAF-OAC (National Institute for Astrophysics - Astronomical Observatory of Cagliari). The applicant will have to develop a project related to the research carried out at INAF-OAC. • 1 funded by CNR-IOM (National Research Council of Italy - Materials Foundry (research topic ‘DIMENSIONING - Developing Interatomic and Machine LEarniNg models for hybrid perovskites SimulatiONs and engineering’, CUP B53C23004900005 - ‘Development and numerical implementation of analytical interatomic potentials and machine learning

	<p>for the study of hybrid perovskites'. Reference person: Dr. Alessandro Mattoni, CNR-IOM Cagliari)</p> <ul style="list-style-type: none"> • 1 funded by the Italo-French University in the frame of the Vinci Call 2023 - Chapter III - Three-year PhD scholarships. Title of the project, to be developed under a cotutelle agreement with Université de Savoie Mont-Blanc: <i>Research of new physics in rare decays of hadrons with beauty quarks</i>. Contact person: Prof. Francesco Dettori - 6 funded with funds from PR FSE+ 2021-2027 (PNR 2021-2027 research and innovation area: Digital, Industry, Energy, Aerospace, Health - regional specialisation area S3: ICT, Aerospace, Biomedicine): <ul style="list-style-type: none"> • 3 on Line A, reserved for university female and male graduates under 35 years at the time of application • 3 on Line B, reserved exclusively for university female graduates under 35 years at the time of application
