If the foreign degree has already been declared equivalent to the Italian degree reported in art. 2 by another Italian University, the candidate will report the reference of the University and the number of the Rector's decree declaring the equivalence. EU citizens can submit their replacement declarations according to articles 46, 47, 19 and 19-bis of the Italian Presidential Decree no. 445/2000.

Non-EU citizens, legally resident in Italy, can provide the above-mentioned replacement declarations, only with reference to situations, personal qualities and facts which can be certified or attested by Italian public bodies.

The absence of even one of the attachments required by this article will result in exclusion from the competition procedure.

THE PROCEDURE FOR COMPLETING AND SUBMITTING THE APPLICATION AND ATTACHMENTS ELECTRONICALLY MUST BE COMPLETED BY NO LATER THAN 12:00 PM (LOCAL TIME) ON 23.2.2026.

The date of electronic submission of the application for participation in the competition is certified by the computer system through a receipt, which will be automatically sent via email. Upon expiration of the deadline for submission, the system will no longer allow access to or submission of the electronic form.

Each application will be assigned an identification number, which along with the competition code indicated in the computer application, must be specified for any subsequent communication.

In the case of access via SPID, no signature will be required during the application submission. If accessing the system through another method, the submission of the application for participation must be completed and finalized through digital or handwritten signature, as indicated below:

a) Through digital signature, using a smart card, USB token, or remote signature, which allow the holder to sign generic documents using signature software on a PC or a web portal for Remote Signature made available by the Certifier. Those with a smart card or USB token for Digital Signature can verify compatibility with the Digital Signature system integrated into the server system. Upon successful verification, the holder can sign the application directly on the server (e.g., ConFirma). Those without compatible digital signature devices and holders of Remote Digital Signatures who have access to a portal for signing generic documents must save the PDF file generated by the system to their PC and, without making any modifications, digitally sign it in CAdES format: a .p7m file extension will be generated, which must then be uploaded back into the system. Any modification made to the file before the application of the Digital Signature will prevent the automatic verification of correspondence between the content of the document and the original, resulting in exclusion of the application;

b) By handwritten signature: if it is not possible to use one of the options mentioned above, the candidate must save the PDF file generated by the system on their PC and, without making any changes, print it and sign the full handwritten signature on the last page of the printed document. This completed document must be scanned into PDF format, and the resulting file must be uploaded into the system.

Candidates who intend to participate in the selection for admission to more doctorates must submit the application, pay the contribution of EUR 26.40 and upload the documents provided for in this article for each selection.

NO WRITTEN COMMUNICATION WILL BE SENT TO APPLICANTS ADMITTED TO SELECTION.

All applicants are admitted conditionally to the selection, and can be excluded in any moment, also after the admission tests, for lack of the requirements of this notice of competition.

The University will check the truthfulness of candidates' self-declarations/affidavits.

Without prejudice to criminal sanctions under the Penal Code and the related special laws (articles 75 and 76 of the Italian Presidential Decree no. 445/2000), if the University administrative offices detect that the information declared by the applicant is mendacious or false, he/she will not be able to enrol.

All necessary communications will be sent by e-mail to the e-mail address registered in the candidate's Esse3 personal webpage. The University administration declines all responsibilities

in the case of a failure in communication, caused by inaccurate information regarding the applicant's e-mail address, or in the event that the candidate does not communicate a change in the e-mail address.

Art. 4 - Admission tests

Admission to PhD programmes is subject to a public selection, which verifies the applicant's preparation, his/her research attitude and knowledge.

Candidates who are unable, for justified reasons, to attend the interview at the competition venue may be granted the opportunity to take it via videoconference, on the Microsoft Teams platform, using the "meeting" tool, on the same date and time established for the in-person interviews, subject to verification of the candidate's identity through the presentation of the identity document attached to the application form, and in a manner that ensures the transparency and publicity of the test.

The reasoned request, accompanied by a scan of the candidate's identity document, must be sent to the email address of the contact person indicated in the form relating to the chosen doctoral programme, up to 3 days before the date set for the interview.

The acceptance of the request is subject to the discretionary and unquestionable assessment of the Committee, which will communicate its decisions by email to the address used by the candidate to send the request.

If the Committee does not respond, the request will be considered rejected and the candidate must attend the interview venue to take the test.

The University of Cagliari declines all responsibility for any technical problems that may prevent the interview from taking place as planned.

Failure to attend the interview and, in the case of a remote interview, the absence of the candidate from the virtual classroom on the appointed day and time, will be considered as withdrawal from the competition.

Only those candidates who obtain a minimum score of 60/100 will pass the selection.

Art. 5 - Selection Committees

The Rector appoints the Selection Committees, upon proposal by the PhD programme Academic Board. Each Committee is composed, in respect, if possible, of gender balance, of three or five effective members and two alternates, identified among professors, university researchers and experts in possession of high and proven scientific or professional qualification in the disciplinary areas of the PhD programme.

The Selection Committees will be able to carry out their functions with the aid of telematic tools. The Rector's decree appointing the Selection Committees will be published on https://web.unica.it/unica/en/studenti_s01_ss05.page, after the deadline for the submission of applications.

Art. 6 - Rankings

The Selection Committees will draw up the ranking list, on the basis of the applicants' comparative evaluation, carried out in accordance with the criteria set out for the admission to each PhD programme, considering the total scores of each candidate. In case of candidates obtaining the same ranking position, the younger will prevail.

The ranking lists will be made available on the PICA platform, in the personal area of participants in the selection procedure, who will receive a notification email from the address noreply-pica@cineca.it with the subject line "Notifica pubblicazione documenti".

The students of a postgraduate medical school who are the winners of the competition for admission to a PhD programme organized by the University of Cagliari may be admitted to the joint attendance of the specialization school and of the PhD programme, with possible reduction of the duration of the doctorate to a minimum of two years, with the authorization, respectively, of the Board of the specialization school and the Academic Board of the doctorate, issued after evaluation of the compatibility of the activities and of the commitment required by the specialization school and the doctoral programme, also in consideration of the distance between the respective locations.

As indicated for each PhD programme in art. 1 and in Annexes published on the webpage https://web.unica.it/unica/en/studenti_s01_ss05.page, scholarships will be awarded with Rector's Decree on the basis of the rankings drawn up by the Selection Committees, also considering the eligibility evaluations on the candidates' projects as well as the selection results.

Research-themed scholarships are awarded exclusively to candidates who are successfully placed in the merit ranking and who have obtained the highest score and a positive evaluation by the Selection Committee regarding the suitability of their curriculum vitae for the specific theme of the scholarship.

The PR FSE+ 2021-2027 scholarships will be awarded to candidates who are successfully placed in the merit ranking and who meet the requirements set out in the regional notice. In particular: Line A scholarships - doctoral grants for projects closely linked to the needs of businesses in sectors that are strategic for the regional economy (S3, internationalisation, innovation, climate and energy transition, and environmental, social and governance sustainability) - to young graduates under the age of 35 at the time of submitting their application to participate in the competition (men and women).

Line B scholarships - PhD scholarships linked to the business system to encourage the participation of female researchers in STEM subjects and, in particular, in the Green and Blue Economy and ICT sectors - are awarded to young female graduates under the age of 35 at the time of submitting their application to participate in the competition (women only).

Scholarship granting procedures, as well as information about fulfilments needed to allocate them, will be published on the webpage mentioned above.

The scholarships have a total duration of three years and are confirmed annually with managerial provision, provided that the PhD student has completed the programme of activities planned for the previous year, verified by the Academic Board.

The annual amount of the scholarship is EUR 16,243.00, gross of tax deduction (INPS "*Gestione Separata*" to the beneficiary: 1/3) and net of the University deduction (2/3).

The amount of the scholarship is increased to 50%, according and proportionally to the duration of the PhD student's stay abroad at universities or research institutions, when he/she is authorized by the Academic Board or, upon its delegation, by the Coordinator, if the stay does not exceed 3 months. The increase on the scholarship is not paid when the PhD student stays in his/her country of origin or residence, except for exceptions authorized by the Rector in relation to special cases.

The scholarships are paid out exclusively to PhD students not receiving an annual gross income higher than EUR 16,243.00. Exceeding that limit will result in the loss of the scholarship and implies the duty to give back the monthly payments already received for a specific year.

The revocation of the scholarship, with the consequent obligation for the beneficiary to refund the total or partial sums received, is made in case of: failure to carry out the scheduled periods of study and research abroad, pursuant to art. 12 par. 2 of the University Regulations on PhD programme; negative assessment of the Academic Board and the consequent non-admission to

the following year of the doctoral PhD programme; waiver from the scholarship; failure to obtain the PhD degree at the completion of the PhD programme.

The PhD scholarships cannot be added to other grants awarded for any purpose, nor to any other research grants/contracts.

Furthermore, PhD scholarships are incompatible with emoluments, however named, received in relation to the activities of medical specialization schools. Therefore, the scholarships assigned to the trainees admitted to the joint attendance of the medical specialization course and the PhD programme will be paid exclusively from the date of termination of the overlapping period, reduced by the accruals relating to the aforementioned period, which cannot be recovered.

The scholarships will be paid in monthly deferred payments. The payment of the first monthly instalment will be done after the conclusion of the administrative and fiscal procedures needed to allocate them, after PhD students will have provided all the relevant documents.

Those PhD students who benefited, although partially, of a PhD scholarship in the past, cannot apply a second time for another PhD scholarship.

Art. 11 - PhD students' attendance and obligations

The PhD programme entails an exclusive and full-time commitment.

The PhD students are required to carry out the PhD activities assiduously and to fulfil the educational obligations according to the programme and in compliance with the deadlines approved by the Academic Board, also with reference to the level of knowledge of English to be acquired at the conclusion of the doctorate, and to carry out, over the three-year period, research and training activities consistent with the doctoral project, at highly qualified foreign university institutions or research institutions, for a period with a mandatory minimum duration of 6 months.

The PhD students can work as tutors, provide integrative teaching activity and be employed according to the Rules and Regulations about PhD programmes in force at UniCa.

At the end of each academic year, the Academic Board evaluates the PhD student's activity, through appropriate forms of assessment, under which he/she can be admitted to the following year or, on a reasoned decision, excluded in the event of a negative evaluation. The exclusion from the programme may be asked also in case of non-participation in the organized activities, unjustified and prolonged absences, or if the PhD student works without the prior authorization of the Academic Board.

Being excluded means losing the PhD student's position and the scholarship.

The excluded PhD student cannot enrol again in the same doctorate.

Attendance of the doctorate and the disbursement of any scholarship received are suspended in cases of maternity, paternity and parental leave and serious and prolonged duly documented disease.

They can also be suspended, for a maximum duration of six months, at the request of the PhD student, with the favourable opinion of the Academic Board, for serious and proven family reasons.

The suspension period, during which the PhD student retains the right to any scholarship received, must be recovered at the end of the three-year legal duration of the doctorate.

At the end of the suspension period, the disbursement of the scholarship starts from the resumption of attendance of the PhD programme, up to the total duration of the scholarship.
