3. Compulsory Supplementary Education (CSE) – Bachelor degrees

3.1 BACHELOR DEGREES IN ENGINEERING

A test result below the pass threshold (score < 15/50), for candidates in useful position in the list, causes assignment of compulsory supplementary education (CSE). These students must take the realignment courses available in the Faculty and on the online platform of the University. The CSE can be satisfied by passing the test in a subsequent session (score $\geq 8/20$), passing the intermediate exam in Mathematical analysis 1 or by passing the complete exam in Mathematical analysis 1, before taking any other exams.

3.2 BACHELOR DEGREE IN ARCHITECTURAL SCIENCE

A test result below the pass threshold (score < 20/50), for candidates in useful position in the list, causes assignment of compulsory supplementary education (CSE). These students must take the realignment courses available in the Faculty and on the online platform of the University. The CSE can be satisfied by passing the test in a subsequent session or by passing the exam in Architectural Drawing and the exam in Integrated Course in Mathematics, before taking any other exams.

3.3 VOCATIONAL BACHELOR'S DEGREES

A test result below the pass threshold (score < 9/30), for candidates in useful position in the list, causes assignment of compulsory supplementary education (CSE). These students must take the realignment courses available in the Faculty and on the online platform of the University. The CSE can be satisfied by passing the test in a subsequent session (score $\geq 8/20$) or by passing the exam in Mathematics (module of Integrated course), before taking any other exams.
